CREATE A SANCTUARY

WELCOME TO OUR WORLD OF COMFORT

Since our founding in South Africa over 13 years ago, we've grown into a global brand, with sofas chilling in the living rooms of over 100,000 people. Our focus on creating comfort and ease is what's got us here. Here's a taste of the world we've created. We hope you'll join it soon.

MAX GANSOW
CEO, VETSAK

“When we refresh the collections at vetsak, it’s always with one focus in mind: creating a sanctuary.”

DIRK SCHÖNBERGER
CHIEF BRAND OFFICER

“We look closely at materials and choose fabrics that feel rich and tactile. From there, it’s about colour — keeping things soft and harmonious, but always leaving room for contrast. Calm shades, paired with moments that add character.

At the same time, we keep the flexibility that’s at vetsak’s core. Practical, adaptable, made for how you live your life. The sofas are easy to build, easy to move, easy to reconfigure as your space or mood changes.

What excites me most is seeing how people make it their own — mixing colours, playing with layouts and letting the collection evolve with how they actually live.”

A SANCTUARY OF COMFORT

OUR SHOWROOM IN DÜSSELDORF

Behind the walls of our townhouse in central Düsseldorf, the vetsak showroom has been transformed into a sanctuary of stillness. A manifestation of the world we want to live in.

Of course, there are sofas and beanbags to experience, fabrics and colours to try, staff to help you design your own space. But from the scent to the sound, we've curated a space to pause. To gather. To join together in stillness.

AT HOME WITH

OUR COMMUNITY

THE ARCHITECTURE OF *AL FRESCO*

Long days, rising heat, sun-soaked gatherings: when the warmer weather returns, the pull of life lived outdoors is irresistible. Make summer's best days totally care-free with our outdoor sofas, engineered to resist spilt drinks, bright sun and even the occasional downpour.

SINK

INTO

STILLNESS

COMFORT TO THE CORE

TUCKED UNDER THE SOFT COVERS OF EVERY VETSAK SOFA IS SOME SERIOUSLY SMART DESIGN.

Meet the vetsak vrame™. The durable core of each of our modules, it's made from a high-performance material used in luxury cars. In sofas, it's unique to vetsak (we patented it, after all).

DURABILITY

The vrame™ resists moisture, heat and wear. Change the covers as often as you like — the core stays the same. That's why this could be the last sofa you ever need to buy.

MODULARITY

Our grid system means modules can be moved and reconfigured any time. Plus, you can add more later if you want to expand your set-up.

COMFORT

When we say 360° softness, we mean it. The vrame™ supports from every angle for easy lounging in any direction. Climb on, sink in and chill out.
